## NOVETATS BIBLIOGRÀFIQUES

### RECERCA DOCUMENTAL: LA QUALITAT DE VIDA DE LA GENT GRAN

Biblioteca Municipal. Ajuntament de Barcelona.

El Servei de Teledocumentació de la Biblioteca General confeccionarà regularment l'apartat de novetats bibliogràfiques de la revista BCN SOCIETAT, a partir de les fonts a què té accés. En aquest primer número s'ha elaborat una bibliografia sobre la qualitat de vida de la gent gran.

La recerca recull les monografies més actuals aparegudes al mercat editorial en llengües espanyola i anglesa, i els articles publicats darrerament a les revistes més reconegudes i amb més solvència dins la temàtica específica.

Les consultes s'han fet a les següents bases:

SOCIOLOGICAL ABSTRACTS, base de dades que processa anualment 1600 títols de revistes sobre sociologia i matèries afins. Tracta la sociologia des de diversos aspectes: teoria, metodologia, solucions a problemes determinats, etc.

AGELINE, base produïda per la «American Association of Retired Persons» que ofereix més de 25.000 registres sobre la gerontologia des de diversos punts de vista: social, psicològic, sanitari i econòmic.

ISBN (International Serial Book Number), produïda pel «Instituto Nacional del Libro Español» que recull els llibres editats a Espanya.

BRITISH BOOKS IN PRINT, pels llibres editats en llengua anglesa, especialment a Gran Bretanya.

BOOKS IN PRINT, per les monografies editades a Estats Units.
