

FAIR TRAVEL LIVING TOGETHER

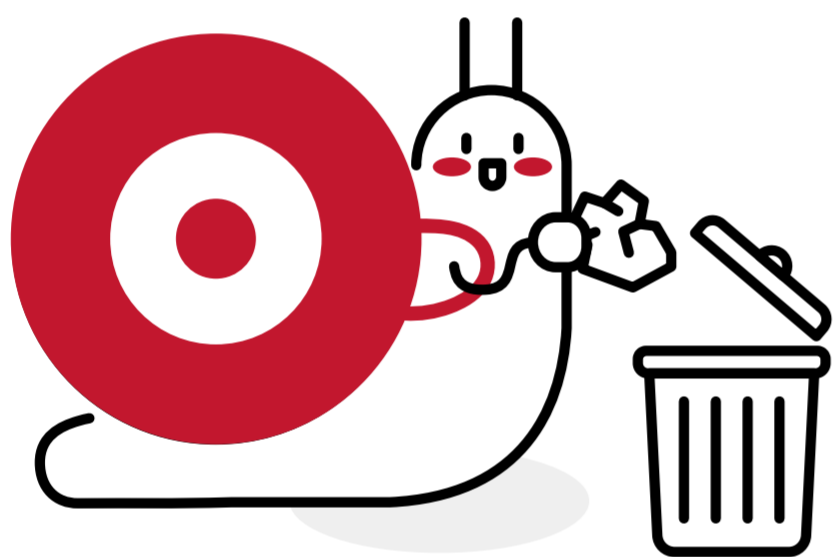

Proposals for a Fair Travel Citizen

I am a “traveling citizen” on a journey
to the city where we live together

Give a hand to create a fair & sustainable city by respecting each other's rights and lives. This beautiful city also belongs to the future citizens.

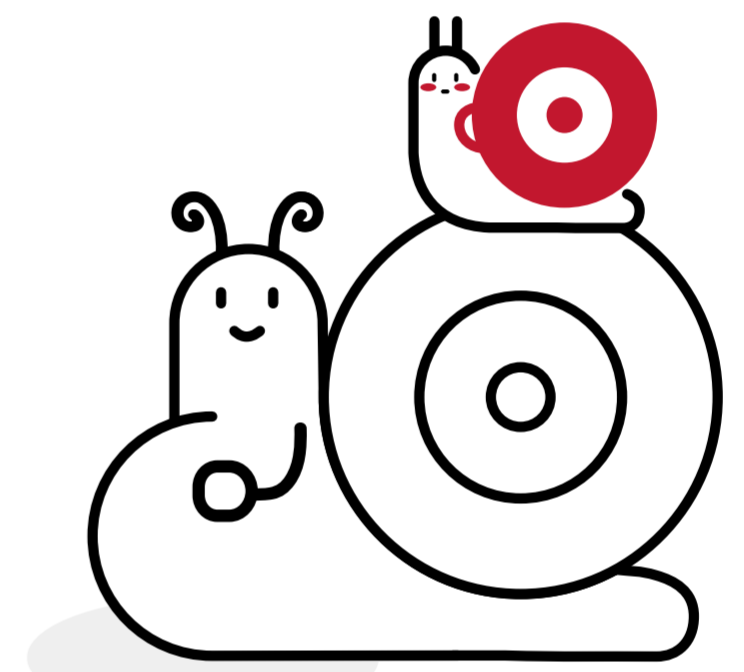

① Respect the culture and people's rights of the city where you are traveling.

② Respect the daily lives of the city: make effort to keep the noise down and reduce trash.

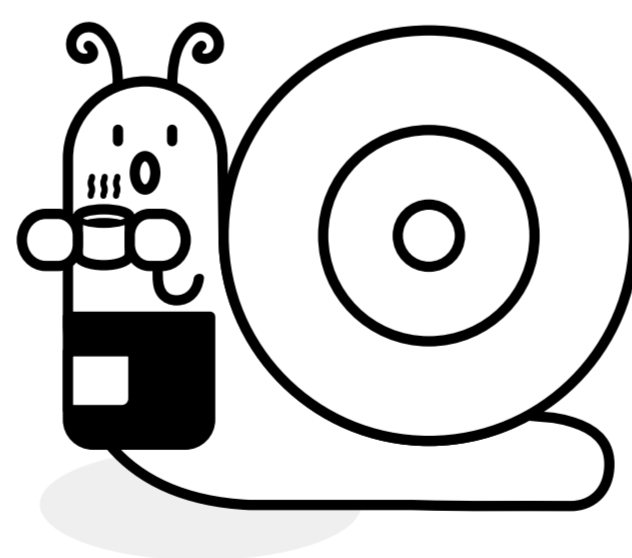

③ Minimize the environmental damage caused by act of traveling. Reduce carbon emission and save our planet by preserving the nature.

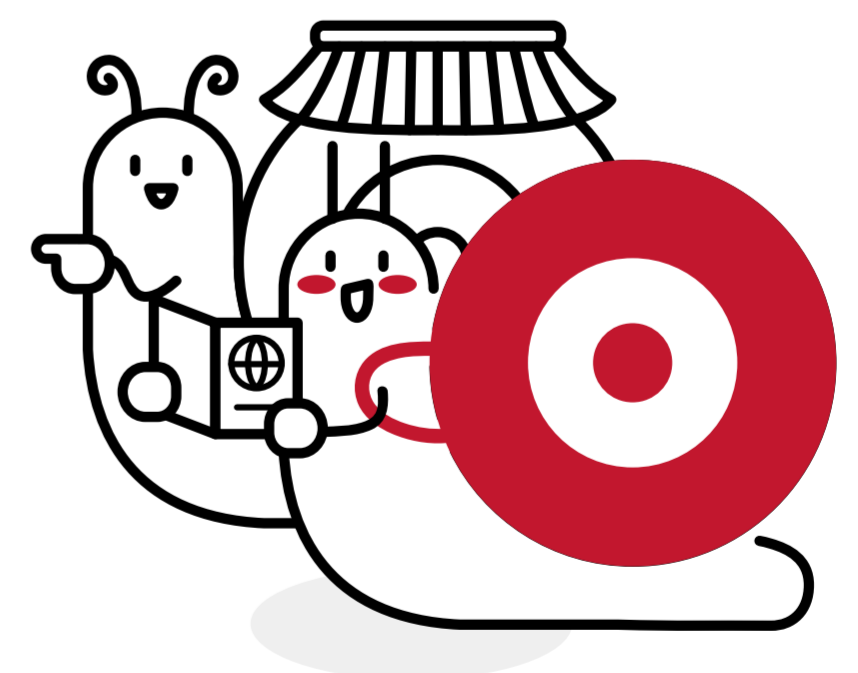

④ Traveling is a right for all. Be considerate to the social weak for their freedom to enjoy traveling.

⑤ Practice ethical consumption: make effort to choose local shops, restaurants, markets and buying handcraft items.

⑥ Respect the human rights of workers in the tourism industry.

⑦ Travelers and citizens living in the tourist cities all deserve to lead happy and sustainable lives.
